3. IF I USE THE BEST DOCTORS SERVICE, WILL MY INFORMATION BE KEPT CONFIDENTIAL?

Like any Medical Service Provider, the *Best Doctors* Service will keep your information confidential. There may be an instance where an insurer requires medical records and in this event, a Medical Provider is legally obligated to provide this information; as is the case with any provider, including your local GP.

4. DOES PERSONAL ACCIDENT INSURANCE REPLACE THE COVER UNDER MY EMPLOYER'S WORKERS COMPENSATION POLICY?

Workers Compensation legislation differs per state, however in most cases, Workers Compensation covers you for injury that occurs only whilst conducting your professional services under your employer and during business hours only. As an employee covered under a Workers Compensation program, you may have no cover for:

- Injury occurring outside of business hours
- Sickness sustained outside of your place of employment
- Your commute to and from work
- Activities not relating to your professional services

Personal Accident is not intended to replace a Workers Compensation Policy, but to protect you for circumstances that fall outside of your Workers Compensation coverage. Where you are a business owner, sole trader or contractor; it is likely that you have no workers compensation coverage and will require Personal Accident coverage as an alternative.

Any Personal Accident claim will be reducible by any eligible Workers Compensation Coverage.
